EUROPEAN INTERCULTURAL PANORAMIC

2008 - 2010

Material made with financial support
of the European Commission through
Lifelong Learning Programme

Our involvement in the project entitled “EUROPEAN INTERCULTURAL PANORAMIC” 2008 -2010 brought the following benefits for all partners :

Benefits for the students:

- personal experience and conviction that UE programmes are available to anyone, even to young people threatened by social maladjustment. (Polish school)
- mutual understanding and cooperation within the work group.
- building up European consciousness and learning about foreign societies
- creating intercultural bonds
- project tasks influence the students in a very positive way in the schools and outside;
- students become more open-minded.
- the students get a chance to learn about the cultures of the countries partaking in the project and widen their skills by using IT technologies.

Benefits for the teachers:

- improving language and IT skills
- improving technical skills as well as project management skills at European level
- experiences connected with cultural differences between the project partners, learning about the cultural heritage of the partner countries
- developing peer cooperation between teachers from different countries, exchanging experience of “good practice.”

Benefits for the schools:

- we are well-spoken of in the local community
- the project gave us an

excellent opportunity to improve the quality of work and widen our education offer for our students.

Benefits for the local community:

- informing the local community about advantages coming from the Life Long Learning Programme.
